Physical Rating: 1

Cultural Shock Rating: 1

Itinerary

Day 1: Beijing

Today we will take you to the **[Fragrant Hills Park]** (Xiangshan Park). Situated in the east part of western hills, 28 kilometers northwest of the Beijing City, Fragrant Hills Park is a large park of hills and forest covering 160 hectares. The most spectacular natural scenery in the Fragrant Hills Park is the red smoke tree leaves over the mountains. When autumn arrives, fiery red leaves blanket the entire mountain. Every year, thousands of tourists come to the park. The cable cars are a great way to take in the beautiful scenes. After lunch we will take you to **[Beijing Zoo]**. The zoo contains a diverse collection of animals, a number of exhibition halls and some sites of historical interest. The zoo is home to around 450 different species and has a population of some 5,000 animals. Some of the most popular attractions among visitors are the wild and rare animals of China itself, such as the **pandas**, golden monkeys, milu deer and northeast tigers.

After all the visits, drive you back to the hotel. The tour ends when you are back to your hotel.
